

What You Should Know About
**One of the World's Most
Researched** Methods of
**Enhanced Blood Flow,
Oxygen** and **Nutrient Delivery**
BEMER[®]

Without adequate oxygen and nutrients and the efficient removal of waste products, your cells cannot metabolize correctly, less energy is manufactured in the cells and the intracellular space becomes acidic.

BY CODY GROTH

Enhanced blood flow is known as the main road of health. It is where the cells are nurtured and disposed of. If one person's smallest blood vessels were to be strung together, it would equate to 74,000 miles, which would wrap around the earth two and a half times.

Every single living cell in your body needs a consistent supply of oxygen. As our cells receive more

Universities

oxygen and nutrients, our body is able to accelerate metabolic waste removal.

Dr. Rainer Klopp, world-renowned physician and head of the Institute for Microcirculation in Berlin, has researched this science for many years and has seen no other technology work as effectively as the BEMER.

How it works

BEMER has a specific patented signal that activates the body's amazing powers. BEMER uses their patented signal to deliver the benefits that no other PEMF machine can accomplish.

In just one eight-minute session, BEMER effectively optimizes general bloodflow as seen here:

“BEMER is one of the most effective and widely researched physical therapy methods available today.”

—Dr. Rainer Klopp,
Institute for Microcirculation, Berlin, Germany

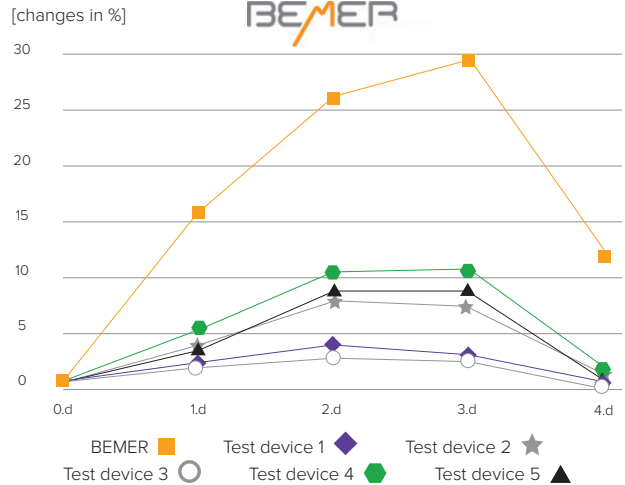

“I have been using BEMER for quite some time and am convinced that the treatment has greatly relieved the injuries I sustained during the last few years. I have been pleasantly surprised many times to find that I can regenerate far more quickly with BEMER after tough training sessions, making it possible for me to train more intensively.”

—Tina Weirather
Olympic Alpine Skier

No other technology compares to the residual results of BEMER as shown in this study:

How BEMER Supplements Yoga

Practicing yoga helps with general blood flow, but what if there was a way to accelerate enhanced nutrient and oxygen supply and cellular waste disposal even further?

We all practice yoga for our own reasons. One reason is to self-heal. Part of this process is the alignment of our bodies chakras and meridians. Practicing yoga regularly is beneficial to increasing general blood flow, but may be difficult and take longer for some, depending on our bodies biochemistry and underlying issues. By using the BEMER, one can accelerate general blood flow even further, resulting in enhanced oxygen supply and cellular waste removal throughout the body. This may correlate with more rapid chakra alignment.

Yoga studios and wellness centers in Europe have been using BEMER for several years to supplement their yoga practice. The benefits of increased blood flow within the human body are renowned, and the positive results of BEMER have been published in over fifty medical publications.

Based on the proven science of beneficial general blood flow along with the research concluding BEMER's positive effects on the human body, every yoga studio, wellness center, as well as anyone who practices yoga could greatly benefit by using BEMER as part of their practice.

...every yoga studio, wellness center, as well as anyone who practices yoga could greatly benefit by using BEMER as part of their practice.

Pets & Plants LOVE BEMER too!

Without BEMER

With BEMER

“The BEMER has a unique ability to enhance delivery of nutrients and oxygen while removing waste material from the blood. This makes BEMER a must have product for those who want the very best for their animals.”

—Linda Tellington Jones
PhD (hon), Author & Creator of the Tellington Method

Our Bodies Are Designed to Heal Themselves

“Americans spend more on medicines than do all the people of Japan, Germany, France, Italy, Spain, the United Kingdom, Australia, New Zealand, Canada, Mexico, Brazil and Argentina...COMBINED” —Our Daily Meds

Over a Million Users Worldwide

It can be said without exaggeration that BEMER represents a revolutionary breakthrough in alternative health. It's one of the most researched physical therapy systems available in the world.

With over a million users in over 40 countries, including Olympic competitors, world-class athletes, and professional sports teams, this is proof of BEMER's deserved position at the top of its market segment with over 18 years of experience in the development and distribution of this cutting-edge technology.

They invite you to search them on the US-National Library of Medicine's Medline and Premedline database with more than 24 million citations, literature, life science journals and online books.

Yoga Digest is proud to be the first to introduce BEMER to the yoga community around the world.

Proven Scientific Benefits of Using BEMER

Enhanced General Bloodflow & Cellular Waste Removal • Enhanced Cardiac Functions • Better Concentration and Relaxation • More Strength, Energy and Physical Fitness • Sleep Management • Stress Reduction

“The doctor of the future will give NO medicine, but will interest his patients in the care of the human frame, in diet and in the cause and prevention of disease.”

—Thomas Edison

You owe it yourself, your family and your clients to research the **BEMER**. For more information
